CS471- Homework 0

Due date: August 31th at 11:59pm EST

1 Introduction

The objective of this assignment is to get familiar with the turnin system and the PDF submissions. The homework will not be graded but it is **mandatory**.

2 Submission

Your homework must be typed and must contain your name and Purdue ID. To submit your assignment, log into `data.cs.purdue.edu` (physically go to the lab or use ssh remotely) and follow these steps:

1. To ssh use the command: `ssh username@data.cs.purdue.edu`

2. Make a directory named `username-hw0` (all letters in lower case)

3. Copy your PDF and code inside it. To do it remotely use the comand from your computer:
   `scp ./path/to/your-file.pdf username@data.cs.purdue.edu:./remote/path/from-home-dir/`

4. Go to the directory containing `username-hw0` (e.g., if the files are in /homes/aporco/aporco-hw0, go to /homes/aporco), and execute the following command:

   `turnin -c cs471 -p hw0 username-hw0`

   (e.g. Aldo would use: `turnin -c cs471 -p hw0 aporco-hw0` to submit his work)

5. To overwrite an old submission, simply execute this command again.

6. To verify the contents of your submission, execute the following command:

   `turnin -v -c cs471 -p hw0`

3 Questions

Answer the following questions in your PDF submission.

1. Why did you decide to take this course?

2. Is there any subject not included in the syllabus that you would like to explore?
